**HIGH PERFORMANCE
YOUTH SUMMIT 2020**

10th, 11th, 12th Dec. 2020 | 11:00 AM - 05.00 PM

Calling Teenagers, Youth, Aspiring Experts & Entrepreneurs

When you are in the mid of an economic downturn that you have never experienced before and you have been hit by all sides with different issues, challenges, problems & opportunities that you have never confronted before and you don't know what really to do correctly, what do you do when you don't know what to do. That's a big question that we have been

asked by many students in the last seven months than you can even imagine.

- What career should I pursue?
- Market requirements are continually changing - How do I choose my career?
- What do we do when our start-up business that was set to launch (right before this blew up) never started?
- What do we do when we have lost a job and we have to become an entrepreneur overnight?
- What do we do if our business was about to get started and now it has stopped?
- Everybody knows what they want to do - why don't I?
- Others know what is best for me, why don't I?
- What do we do if our business is going okay but we don't know when it will start again ? Is it going to be ruthless and competitive?
- What do we do if our product is not what people are buying?
- What do we do if we need to pivot and we don't know how and where the opportunity lies?

- What do we do if we need to penetrate new markets and we don't have the capital?
- What do we do if we have a limited product or service offering and we don't know how to get pass it ?
- What do we do if we have identified some screaming opportunities, but we don't have a clue how to monetize them?
- What do we do if our product is not what people are buying?
- What do we do if we need to pivot and we don't know how and where the opportunity lies?

Those are the kind of questions that we have heard over and over again by hundreds & thousands of teenagers, youth, aspiring technicians, experts and entrepreneurs. ...
